Introduction

Background

The program aims to train and certify Physicians/Basic and Allied Medical practitioners as Clinical Chiropractic Associates (CCA) and; Manual therapists as Chiropractic Manual Therapists under the NSCRD framework.

Goal

To develop the capacity of GP/Physician, equipping them with the necessary professional expertise to effectively provide Chiropractic Care, first as interns alongside qualified Doctors of Chiropractic (DC) in Nigerian Society for Chiropractic Research and Development (NSCRD) Clinics nationwide.

Benefits:

- * Instant Placement at NSCRD Clinics nationwide
- * Professional upgrade in chiropractic healthcare delivery
- * Career fulfillment by helping people manage pain, improve mobility, and enhance overall well-being
- * Opportunity for Research and Development in Chiropractic health care delivery across Africa.

Practical/Laboratory

Weekend onsite (NSCRD Clinic [prototype] in Abuja)

Internship

Paid Chiropractic Internship commences for all students upon successful completion of theoretical and practical course hours and exams.

Paid 50% Tuition.

Certification

Awarded after successful completion examination and practical assessments.

Awardee qualify as interns to receive further training at NSCRD Clinics and to work as NSCRD staff upon completion of the training.
